

Harold E. Alexander Nature & Leaf Trail

This route circles the 13,000-acre Harold E. Alexander Spring River Wildlife Management Area. It is 39 miles long and takes approximately 52 minutes because of the beautiful but winding and narrow roads. It is quite rural, so gas up before you go.

All roads on the route are state highways except for Liberty Hill Road, which has been included for its scenic beauty. If you wish to stay on state highways, simply continue on AR-354 rather than turning onto Liberty Hill. This will take you to US-412 East in Ash Flat, which will lead you back to Hardy. (This is the route shown on the map.)

1. From Hardy, take US-412 to AR-58. (7.4 miles, 9 minutes)
2. Take AR-58 West (it will seem South) to AR-354. (12.4 miles, 16 minutes)
3. Take AR-354 to Liberty Hill Road. (8 miles, 10 minutes or continue on AR-354 to US62/US-412 East in Ash Flat for an all-highway route to Hardy)
4. Take Liberty Hill Road north to Highway 62 in Highland. (8.8 miles, 13 minutes)
5. Take US-62/US-412 to Hardy. (2.5 miles, 4 minutes)
